NEW JERSEY STATE DATA CENTER

The New Jersey State Data Center (NJSDC) is a federal-state cooperative program between the U.S. Bureau of the Census and the State of New Jersey. Objectives of the program include increasing the access to, awareness of, use of, and expertise in census and related data and products. Some examples of how these objectives are accomplished are provided below.

Access: The NSJDC consists of a network of over 90 state, county, and local agencies. The lead agency is housed within the Office of Demographic and Economic Analysis, Division of Planning and Research, New Jersey Department of Labor. Primary participants are the State Library, Princeton University Computer Center, and Rutgers University Computer Center. The 21 counties are cooperating through the county planning agencies (except in Burlington County - Department of Economic Development). All New Jersey state agencies participate, as well as the 42 New Jersey depository libraries. Contacts have been established in each of the agencies for providing access to and assistance in the use of census information.

Awareness: The NJSDC publishes a quarterly newsletter which provides details on data availability. Articles analyzing demographic and economic trends are also included.

Use: The NJSDC produces publications containing data from the 1980 census and makes them available at cost upon request.

Expertise: The NJSDC sponsors conferences and workshops several times a year.

Additional information on the NJSDC, including listings of contacts and publications, can be obtained by writing to: NJSDC, Division of Planning and Research, Department of Labor, CN 388, Trenton, New Jersey 08625-0388.

PREFACE

This report is an update and considerable expansion of the "Demographic and Economic Factbook" published by the New Jersey State Data Center in November 1984. The previous edition provided selected data only from the New Jersey Department of Labor. However, for the present publication, the other departments of New Jersey state government were invited to contribute, and most of them were able to do so. Therefore, a much broader scope of statistical information on the state has been compiled, with data obtained from about 20 agencies in all.

Government agencies collect and maintain data according to their particular operational and informational needs. Most departments tabulate their statistics for counties (and, in a few cases, for municipalities). Thus, for most of the tables in this publication, we have been able to provide data for the state and its 21 counties. However, some data series are available only for the state as a whole, or for specialized substate regions (labor areas, for example) or for specific geographical locations (e.g., air quality monitoring sites). Two types of aggregate geographic areas for which some data are presented here are Metropolitan Statistical Areas (MSAs) and labor areas:

Metropolitan Statistical Areas (MSAs): Defined by the U.S. Office of Management and Budget, a MSA consists of a large population nucleus and nearby communities that have a high degree of social and economic integration with that nucleus. Each MSA consists of one or more entire counties that meet standards pertaining to population, commuting ties, and metropolitan character. The MSAs referred to in this publication are those designated in 1983. They are depicted in the map on page 5. Consolidated Metropolitan Statistical Areas (CMSAs) are metropolitan complexes with more than one million persons, within which Primary Metropolitan Statistical Areas (PMSAs) have qualified for delineation. Those areas not qualifying as part of a larger Consolidated area are designated as simply Metropolitan Statistical Areas (MSAs). Metropolitan areas may cross state lines; but for the three New Jersey MSAs that do so, we show data only for the New Jersey portions.

Labor Areas: Defined by the U.S. Bureau of Labor Statistics, a Labor Area consists of a central city or cities and the surrounding territory within commuting distance. It is an economically integrated unit within which workers may readily change jobs without changing their place of residence. Labor areas usually are identical to MSAs, or at least closely resemble them. Labor areas are limited to the boundaries of the state of New Jersey.

ACKNOWLEDGEMENTS

This publication was produced under the direction of Connie O. Hughes, director of the New Jersey State Data Center. Alfred R. Toizer was responsible for its preparation. Charles Longenecker assisted with the computer mapping. David Crane helped in the design and layout of the publication.

However, these efforts would not have succeeded without the cooperation of persons in many departments of the New Jersey state government. For their assistance in providing data and for reviewing the contributions of their departments, we wish to give our thanks to the following individuals:

Agriculture	James R. Gibson
Banking	Gerald Trimble
Community Affairs	John Tolleris
Corrections	Stan Repko
Defense	Maj. William C. Lowe
Environmental Protection	Ginny Festa, James C. Slaughter
Education	Fran Pinkowski
Health	Phyllis Spych, Henry Watson
Higher Education	Maxine Goldsmith
Human Services	Jo Auletto, Chuck Cheeseman, Sheldon Presser, Jim Sansotera
Labor	Randy Belknap, Edward Butterer, Douglas K. Dickson, Waldemar Falk, Dave Felsheim, Elsie L. Fritz, Frederick W. Hollmann, Anna M. Kiley, C. Ronald Parker, William Saley, Rick Sanchez, Ron Thather, Robert Vaden
Law and Public Safety	Bill Duckworth, Sgt. Bill Kornek, Valerie Holman, Brian McKeever
State	Christine D. St. John
Transportation	George Kuziw
Treasury	Richard Guhl

The following agencies of the State also gave us their assistance, and we want to thank their personnel:

Administrative Office of the Courts	Alan Campi
Casino Control Commission	Carol Kokotajlo
Economic Development Authority	Sam Calaby

The Newark Regional Office of the U.S. Department of Housing and Urban Development also provided data for the State of New Jersey.

WARREN COUNTY	10,500	2,800	10,700	7,900	7,600	800	1,800	6,000	4,200	-1,100

Note: Population change, and estimates of the components of change, have been rounded to the nearest hundred persons at the county level, and to the nearest thousand for the state.

Net migration is estimated as the residual change in total population after having accounted for the natural-increment component (i.e., births minus deaths).

Notes: The 1980 population totals shown here for the State and for Essex County differ from the figures in Table 1 due to a correction that added 188 persons after the age tabulations were completed by the Census Bureau.

Population estimates for 1985 are provisional. State estimates are shown to the nearest thousand persons, and county estimates to the nearest hundred persons. The same practice is followed for the four age groups.

OTHER **	12	0	0	0	1	2	5	0	0	0	0	0

Notes: * Major crimes are murder, rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft. These seven offenses are used in the preparation of "indexes" that measure the extent, fluctuation, and distribution of crime in geographic areas. They are, therefore, often referred to as the "Index Crimes."

** Several state agencies (such as park police and transit police) do not report arrests according to county.

*** Juveniles are persons under 18 years of age.

Notes: This summary covers Trial Court cases from criminal, civil, municipal appeals, post-conviction relief, general equity, special civil, surrogate, delinquency, dissolution (divorce), nondissolution, domestic violence, and other family calendars.

Figures include all cases added, and all cases disposed of, during each Court year (i.e., for the 12-month period ending June 30 for years 1983-1986, and the 12-month period ending August 31 for 1981 and 1982.)

Dispositions can outnumber added because of the variance in cases pending that are carried over on the court calendars from one year to the next.

WARREN COUNTY	218	219	222	276	272	324	242	223	292	288	234	279

Note: * Figures include civil cases added, and civil cases disposed of, during each Court year (i.e., for the 12-month period ending June 30 for years 1983-1986, and for 12-month period ending August 31 for 1981 and 1982).

Dispositions can outnumber added because of the variance in cases pending that are carried over on the court calendars from one year to the next.

Civil cases involve suits for $5,000 or more.

Notes: * Maximum 8-hour average of Carbon Monoxide parts per million, based on non-overlapping 8-hour moving averages.

** Periods in violation are those in which the 8-hour average exceeds 9.0 parts per million.

Where no data are shown, the site was not in operation that year. Furthermore, some sites did not record Carbon Monoxide levels for the entire year, missing the following periods:

Bayonne: Feb 1984
Camden: Apr-Dec 1980
Clarksboro: Jan-Apr & Sept-Dec 1982
Elizabeth Lab: Jan 1980, Apr-Dec 1981
Newark: Sep-Dec 1984
Paterson: Feb 1981
Paulsboro: Mar-Dec 1980
Penns Grove: Mar-Dec 1983
Phillipsburg: Mar-Dec 1982
Somerville: Aug-Dec 1983
Trenton: July-Dec 1981
Vineland: Dec 1980

A map showing the various monitoring sites is on the page 33, preceding.

Notes: Figures shown above are in dollars.

* Both revenues and taxes for 1983 include combined results from Claridge Limited and The Claridge at Park Place, Inc.

** Figures on taxes paid include the following:
Resorts, 1980 - a $319,392 penalty imposed by the Casino Control Commission.
Sands, 1982 - $19,653 in delinquent taxes and $2,800 in interest.
Tropicana, 1983 - $851 in delinquent taxes and $140 in interest.

Notes: Data are as of September 30 of each year.

Financial Support includes salaries for National Guardsmen and civilian employees, facility operating and maintenance expenses, and State aid to municipalities in lieu of taxes.

Dollars have been rounded to the nearest thousand, so county figures may not add precisely to State totals.

Notes: Data are by place of residence and are based on the U.S. Bureau of Labor Statistics Current Population Survey (CPS) of about 2,700 New Jersey households. Labor Area data are controlled to the CPS by using a procedure primarily based on unemployment insurance claims and employer survey data. Since the data are from a sample survey, estimates will differ from data that would have been derived from a complete census. Estimates for the state are rounded to the nearest thousand persons, and for Labor Areas to the nearest hundred.

The series are adjusted to 1986 New Jersey population estimates produced by the U. S. Bureau of the Census. Labor area data before 1986 are not strictly comparable, due to a change in the estimating methodology.

The Labor Areas listed in this table are equivalent to Metropolitan Statistical Areas, as shown on the map on page 5. For MSAs which cross state lines, only the New Jersey portion is included in this table.

Notes: Estimates are by place of work and are derived from a monthly survey of about 9,500 non-farm wage and salary employers. Data are based on payroll records for persons who worked during the pay period including the 12th of the month, and are adjusted annually to more complete employment counts (benchmarks) primarily from administrative records of employers covered under the New Jersey Unemployment Compensation Law.

The series are adjusted to 1986 benchmarks

1980	54.3	18.1	.	1.8	3.0	9.0	2.4	8.5	11.5
1981	53.7	17.7	0.5	1.8	3.0	8.8	2.5	8.3	11.2
1982	51.9	16.7	0.4	1.5	2.6	9.1	2.7	8.3	10.6
1983	52.1	16.3	0.3	1.6	2.3	9.4	2.6	8.7	10.8
1984	51.8	15.2	0.3	1.8	2.0	9.9	2.7	8.8	11.1
1985	52.7	14.7	0.3	1.8	2.1	10.6	2.7	9.3	11.2
1986	54.2	15.1	0.3	2.2	2.1	10.8	2.8	9.6	11.3

Notes: Estimates are by place of work and are derived from a monthly sample of about 9,500 nonfarm wage and salary employers. Data are based on payroll records for persons who worked during the pay period including the 12th of the month, and are adjusted annually to more complete employment counts (benchmarks) primarily from administrative records of employers covered under under the New Jersey Unemployment Compensation Law.

The series are adjusted to 1986 benchmarks.

The following Labor Areas are equivalent to Metropolitan Statistical Areas:
Atlantic City = Atlantic City MSA
Camden = the New Jersey portion of the Philadelphia PMSA
Jersey City = Jersey City PMSA
Middlesex-Somerset-Hunterdon = Middlesex-Somerset-Hunterdon PMSA
Monmouth-Ocean = Monmouth-Ocean PMSA
Newark = Newark PMSA
Trenton = Trenton PMSA
Vineland-Millville-Bridgeton Vineland-Millville-Bridgeton PMSA
The two-county Bergen-Passaic PMSA is divided into individual one-county Labor Areas.
Counties not included in major Labor Areas (Salem and Warren) are included in the totals for the State of New Jersey, shown in more detail in Table 38 (page 59).

Notes: Data are by place of work, and are obtained from administrative reports required of all employers "covered" under the New Jersey Unemployment Compensation Law. Historical data are not adjusted for changes in coverage. See source reference for data limitations. Data are for the month of September of the years shown.

* This table includes municipalities that had more than 20,000 employees as of September 1985. Places are listed alphabetically.

FINANCE, INSURANCE, AND REAL ESTATE	952	984	895	1,040	1,166	1,237	1,046
SERVICES *	4,850	5,372	5,709	5,759	6,417	6,286	5,732
OTHER **	896	763	965	1,310	1,656	2,439	1,338

Notes: The birth counts represent establishments (physical locations) or units, and not companies. Consequently, the counts could somewhat overstate the number of new companies in New Jersey. Since most new firms are small, the use of units rather than companies is not considered to be significant.

* Elementary and secondary schools (SIC 821) and private households (SIC 88) were excluded to prevent distortions due to changes in the Unemployment Compensation law.

** This category includes establishments which could not be classified by industry.

A detailed explanation of the source and methodology for identifying business births is available in New Jersey Business Births, 1975-1983.

HOURLY EARNINGS	$ 7.63	$ 8.33	$ 8.62	$ 8.98	$ 9.27	$ 10.39

Notes: Estimates are by place of work and are derived from a monthly survey of about 2,000 manufacturing firms. Data are based on payroll records for persons who worked during the pay period including the 12th of the month. Since these data are from a sample survey, estimates will differ from data that would be derived if a complete employer census were conducted.

The series are adjusted to a 1985 benchmark.

The following Labor Areas are equivalent to Metropolitan Statistical Areas:
Atlantic City = Atlantic City MSA
Camden = the New Jersey portion of the Philadelphia PMSA
Jersey City = Jersey City PMSA
Middlesex-Somerset-Hunterdon = Middlesex-Somerset-Hunterdon PMSA
Newark = Newark PMSA.
Trenton = Trenton PMSA
The two-county Bergen-Passaic PMSA is divided into individual one-county Labor Areas. Counties not included among these selected labor areas (i.e., Cumberland, Monmouth, Ocean, Salem, and Warren) are included in the totals for the State of New Jersey.

Notes: Personal income is the income of residents of an area from all sources, measured after the deduction of personal contributions to old age and survivors insurance, government retirement, and other social insurance programs, but before deduction of income and other personal taxes.

Income estimates for 1980 through 1983 are revisions of previously published figures, and the newly published figures for 1984 are preliminary.

CONSTRUCTION							9,743	11,182	9,671	16,348	17,335	18,186

Notes: Data are for Authority-assisted projects closed during the year.

* Dollars have been rounded to the nearest thousand, so county figures may not add precisely to State totals. Annual detail on Other Funds invested in Authority-assisted projects, and the total cost of all projects, is presented below the county listing.

** Jobs include the estimated number of permanent jobs to be created by the project, plus the number of construction job assignments estimated for the project. Annual detail on the two types of jobs is shown below the county listing.

*** Prior to 1985, certain complex multi-county utility projects were not coded by county.

Number of Farms, and Land in Farms: Selected Years, 1940-1986
United States and New Jersey

YEAR	NUMBER OF FARMS		LAND IN FARMS (1,000 ACRES)		AVERAGE SIZE OF FARM (ACRES)	
	UNITED STATES	NEW JERSEY	UNITED STATES	NEW JERSEY	UNITED STATES	NEW JERSEY
1940	6,349,800	27,200	.	.	.	.
1945	5,966,750	27,100	.	.	.	.
1950	5,647,800	26,900	1,202,019	1,770	213	66
1955	4,653,800	21,600	1,201,900	1,650	258	76
1960	3,962,520	15,800	1,175,646	1,460	297	92
1965	3,356,170	11,000	1,139,597	1,220	340	111
1970	2,949,100	8,600	1,102,371	1,060	374	123
1975	2,521,420	8,600	1,059,420	1,035	420	120
1980	2,432,510	9,400	1,038,885	1,020	427	109
1985	2,274,730	8,700	1,014,383	940	446	109
1986	2,214,420	8,300	1,007,363	920	455	111

Notes: Data for 1986 are preliminary.

Statistics on farm acreage are not available for years prior to 1950.

The definition of Farm has undergone numerous changes during this period:

1975-1985 A farm is a place that sells or could sell $1,000 of agricultural products during the year.

1954-1974 A farm is a place of 10 or more acres that had annual sales of $50 or more of agricultural products, or any place of less than 10 acres that had annual sales of $250 or more.

1950 A farm is a place of three or more acres that produced farm products whose value amounted to $150 or more, exclusive of home gardens. Places of less than three acres which had sales of $250 or more were also considered farms.

1925-1945 A farm is a place of three or more acres on which there were agricultural operations, and places of less than three acres with products for home use or for sale of $250 or more.

Notes: The table includes units that are, or will be, available for occupancy by June 30, 1987.

* The Section 8 program has replaced virtually all previous Federal housing programs (except for traditional public housing). It provides housing for low- and moderate-income households through the following programs: New Construction, Substantial Rehabilitation, Moderate Rehabilitation, Housing Vouchers, and Existing housing units.

** The Statewide category includes units administered on a statewide basis by the New Jersey Department of Community Affairs. These units have not been tabulated by county.

Index to Table Numbers

Age of Population:
- Estimates, by county 3
- Projections, 5-year cohorts, state 7

Agriculture:
- Cash receipts, by commodity 57
- Crop acreage and value, state 56
- Farms and farm land, U.S. and N.J. 55

Aid to Families with Dependent Children 32

Air Quality:
- Carbon monoxide 23
- Ozone 24

Arrests, Total and Juvenile:
- All crimes, by county 15
- Major crimes, by county 16

Bachelors Degrees, state 14

Ballots Cast, by county 28

Banking:
- Deposits (total), by county 51
- Trends, by type of bank 50

Births:
- Businesses, by county
- Businesses, by industry 44
- Resident live births, by county 9

Carbon Monoxide Violations 23

Casino Industry: Revenues and taxes 26

Children:
- Abuse cases, by county 34
- Aid to families with dependent children, by county 32
- Births, by county 8
- Infant deaths, by county 9
- Neglect cases, by county 34
- Placement services, by county 33
- Public school enrollment, by county 10
- Public school graduates, by county 11
  11

Civil Court Cases, by county 20

Colleges and Universities:
- Bachelors degrees conferred, state 14
- Enrollment (undergraduate), state 13

Commercial Bank Trends, state 50

Construction:
- Jobs created, by county 52
- Residential (authorized units), by county 58
- Residential (authorized units), municipal 59

Correctional Institutions: population of, state 21

Court Cases:
- Criminal, by county 19
- Civil, by county 20
- State courts, summary 17
- Trial courts summary, by county 18

Covered Employment:
- Total, by industry 41, 42
- Total, selected municipalities 43
- Wages (average annual), by county 47

Crime:
- Arrests, by county 15, 16
- Compensation claims 22
- Court Cases 17, 19

Crops: Acres harvested, value 56

Deaths: Total and infant, by county 9

Density: Population, by county 1

Earnings: Production workers 46

Economic Development, by county 52

Elderly Persons:
- Congregate meals served, by county 35
- Population estimates, by county 3
- Population projections, state 7

Elections:
- Ballots cast, by county 28
- Registered voters, by county 27

Employment:
- Covered, by county 42
- Covered, selected municipalities 43
- Occupational, estimates and projections 37
- Unemployment, by labor area 36
- Wage and salary, state 38
- Wage and salary, by labor area 40

Enrollment:
- Colleges and universities, state 13
- Public schools, by county 10
- Public schools, by grade 12

Index to Table Numbers, cont.

Estimates:
- Age of population, by county 3
- Components of population change, by county 2
- Covered employment 36, 38, 40
- Metropolitan population 4
- Occupational, state 37
- Total population 1, 2, 3, 4, 5
- Wage and salary employment 38, 40

Families:
- Placement services, by county 33
- With dependent children, by county 32

Farms: Number and acreage 55

Food Stamps: Households, by county 31

Forests, State: Acreage, by county 25

General Assistance: Persons aided, by county 30
